EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Rashid on 3/30/05.

The application has been amended as follows:

Claim 54, line 3, ---, at least a portion of which is exposed to the vehicle interior, --- has been inserted following "surface".

Claim 66, line 5, ---defining at least a portion of an at least partially exposed exterior surface of the panel structure--- has been inserted following "an outer layer".

Claim 78, line 5, ---defining at least a portion of an at least partially exposed exterior surface of the panel structure--- has been inserted following "an outer layer".

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the present claims are allowable over the closest prior art to Furuya et al. (US 5242738). Furuya et al. discloses a vehicle panel structure having inner and outer layers of polyurethane bonded together and attached to a substrate layer. The reference fails to teach or suggest a motivation to use a polyurethane inner layer having at least one ethylenically unsaturated bond in its backbone. Furthermore, the reference fails to teach or suggest the limitation directed to "the interfacial chemical bond" formed between the claimed inner and outer polyurethane layers wherein the bond is formed between (1) at least one unreacted functional group present in the polyurethane or the crosslinking agent or monomer in the outer layer and (2) an ethylenically unsaturated bond in the backbone of the inner layer or a pendant hydroxyl group therein. The prior art fails to teach or suggest a motivation to add these particular features to the invention taught by Furuya et al. in order to arrive at the claimed article or method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
